Sub: Documents at time of applications received for Net metering for Rooftop Solar system in Residential Sector on National portal- reg.

Ref: E- Sarkar file No. GUVNL/Tech/e-file/443/2024/0695/Technical

Respected sir,

MNRE vide OM dated 11-01-2024 specified the documents required at Technical feasibility approval stage and Project commissioning/ Net-metering stage and also directed to ensure that no other documents are sought from the applicants for ensuring ease of installation of rooftop solar project by the consumer, which needs to be followed by all the DISCOMs.

It is to state that as per stepwise procedure mentioned on National Portal, once the installation is completed, applicant has to submit the plant details and apply for net-meter.

In view of above, consumer has to submit Net Metering Inter Connection Agreement as per prevailing GERC Regulation. Accordingly, DISCOM may obtain this agreement before installation of Net meter.

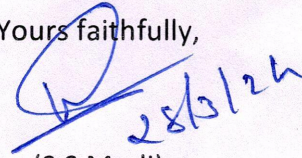

Further, at the time of signing of the said agreement, copy of invoice may also be collected by DISCOM to ensure the ownership of the Rooftop i.e. for Self consumption or Third Party.

It is, therefore, requested to instruct the concerned officers to take appropriate actions after observing all the formalities, please.

This is issued with the approval of the Competent Authority.

Thanking you,

Yours faithfully,

(S S Modi)

Chief Engineer

(SRT & PM KUSUM)
