Technical Bids of 41 bidders were opened on 07/06/2024. As per techno-commercial scrutiny report, out of 41nos. of bidders, 7nos. of bidders are disqualified and 34nos. of bidders are qualified for opening of price bid. The price bid opened on dt.22/07/2024 for the aforesaid tender.

As there is a provision of "Reverse auction" as per Section-I : Bid opening & Evaluation cl.no.1.7 Financial Evaluation after opening of price bid for the aforesaid tender, it is required to decide the decrement value for "Reverse action". A tentative Schedule of Reverse auction is attached herewith as per Annexure-A (based on the price bid quoted by bidders) for selection of successful bidders and capacity allocation.

As per Section-I: Bid Evaluation cl.no.1.7 (7.2) Reverse auction, the above mentioned 34nos. of bidders will be able to login into <https://e-auction.nprocure.com/> for reverse auction 15 minutes before the start time of reverse auction.

(i) During 15 minutes prior to start of reverse auction process, the respective tariff along with the total Procurement capacity of the bidder for respective sub-station shall be displayed on its window.

(ii) The minimum decrement value for tariff shall be ₹ 0.01 per kWh. The bidder can mention its revised tariff which has to be at least 01 (one) paisa less than its current tariff.

(iii) Bidders can only quote any value lower than their previous quoted tariff taking into consideration of the minimum decrement value mentioned in previous Section. However, at any stage, increase in tariff will not be permissible. Bidders can improve their ranking by quoting the tariff lower than their last quoted tariff.

(iv) During Reverse Auction, the bidder shall not have the option of changing the total Project capacity while quoting tariff during reverse auction.

(v) In the bidder's bidding window, the following information can be viewed by the bidder:

1. Its tariff as their initial start price and there after last quoted tariff along with Project capacity bided by the bidder;

2. The list of all the bidders with their following details:

Pseudo Identity, last quoted tariff and bided capacity

(vi) The initial auction period will be of 30 (thirty) minutes with a provision of auto extension by 5 (five) minutes from the scheduled/ extended closing time. Such auto extension shall be effected if by way of reduction in tariff, a Bidder causes a change in its zonal placement at that instant. The 'zones' are as defined below:

(a) Green Zone: This zone consists of the Bidders who may be allocated their full quoted Project capacity if the auction is closed at that instant.

(b) Yellow Zone: This zone consists of the Bidders who may be allocated a part of their full quoted Project capacity if the auction is closed at that instant.

(c) Red Zone: This zone consists of the Bidders who will not be awarded their quoted Project capacity if the auction is closed at that instant.

If no such change as described above is effected during the last 5 minutes of auction period or extended auction period, then the reverse auction process will automatically get closed.
