PROPOSAL TO PLACE LOI (LETTER OF INTENT) TO VARIOUS BIDDERS AND TO FILE PETITION FOR ADOPTION OF TARIFF DISCOVERED UNDER TARIFF BASED COMPETITIVE BIDDING PROCESS CONDUCTED BY MGVCL VIDE RFS NO. MGVCL/PROJECT/DSM/PM-KUSUM-C-FLS/TN-7, DTD.03/01/2024 BEFORE THE GERC FOR PURCHASE OF POWER FROM SOLAR POWER PROJECTS THROUGH COMPETITIVE BIDDING PROCESS (FOLLOWED BY REVERSE E-AUCTION) FOR SOLARIZATION OF 11KV AGRICULTURAL FEEDERS EMANATING FROM SELECTED 66/11KV SUB-STATIONS IN THE SUPPLY AREA OF MGVCL UNDER PM-KUSUM SCHEME FEEDER LEVEL SOLARIZATION THROUGH RESCO MODE.

The proposal regarding placing of LOI to various bidders and to file petition for adoption of tariff under PM-KUSUM Scheme Feeder Level Solarization through RESCO mode, was placed before the Board for consideration and decision.

It was briefed that GUVNL vide Letter dated 23-01-2024 has allotted target of 5000 Ag. Pump-sets and also authorized MGVCL for inviting request for selection (RFS) from solar power generator (SPG) for feeder level solarization under Component-C of PM-KUSUM Scheme under RESCO mode. Accordingly, MGVCL has invited RFS on 03.01.2024

On the basis of the Guidelines, MGVCL has invited Request for Selection (RFS) for purchase of solar power through competitive bidding process (followed by reverse e-auction) for solarization of various 11kv feeders of selected 66/11kv substations in MGVCL area as per Annexure-3 of the tender. Summary of Feeders covered for Solarization is as under-

No. of Solar plants against which bids invited	No. of 11 KV Ag. Dom Feeders covered	No. of grid connected Ag. Consumers covered having contracted load up to 7.5 HP	Aggregate Notified Solar Capacity of all plants (MW) after round off
80	260	99740	134.5 MW

The Company has received participation of total 150 Nos. of bids in Tender No. TN-7 in online mode. Out of 150 bids, 135 bids found qualified during preliminary bid evaluation. As per techno-commercial bid evaluation report, 14 Nos of bids were disqualified and 121 Nos. of bids were eligible for price bid evaluation. The online price bids were opened on e-bidding portal. Finally, 110 bids were found qualified for further Reverse Auction and 11 bids were found as single bid. The Board was briefed about the outcomes of e-Reverse Auction process.

The Board also deliberated on the reasons for receiving single bids in certain locations, citing factors such as area constraints and land availability.

The Board was informed that for the earlier PM KUSUM scheme FLS tender TN-06 (Tender ID: 582408), the e-reverse auction for one plant concluded with a final rate of ₹3.05 per unit. After this, MGVCL issued a Letter of Intent (LoI) and subsequently filed a tariff petition (petition no. 2267 of 2023) with the GERC on November 8, 2023, seeking approval for a tariff of up to ₹3.00 per unit. Approval from GERC is currently pending.

In this tender, out of the total eligible bidding capacity of 134.5 MW, 72.5 MW capacity (i.e. around 53.90%) is covered within the rate of Rs. 3.00 /unit. Thus, around 72.5 MW distributed solar capacity at compatible rate will be available to DISCOMs helping towards RPO fulfillment as well as catering Ag demand appropriately under KSY scheme. In view of this, the tariff rate up to Rs. 3.00 / unit is proposed for offering LoI to selected bidders for procurement of solar power from the projects to be established under Component C (Feeder Level Solarization) of PM KUSUM scheme.
